# NOTES TO THE UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

# 1. General information

Trivium Packaging B.V. (the "Company") was incorporated in the Netherlands on July 8, 2019. The Company's registered office is Schiphol Boulevard 127, WTC Schiphol, Tower G, 1118 BG Schiphol, The Netherlands.

Trivium Packaging B.V. and its subsidiaries (together the "Group" or the "Trivium Group") are a leading supplier of innovative, value-added, rigid metal packaging solutions. The Group's products mainly include metal containers primarily for food and aerosols markets. End-use categories include food, nutrition, seafood, premium beverage offerings, paints & coatings, chemicals, personal care, pharmaceuticals and general household.

These unaudited consolidated interim financial statements reflect the consolidation of the legal entities forming the Group for the period presented. The period ended September 30, 2019 reflects the consolidation of the legal entities of the Trivium Group prior to the combination of the Food and Specialty business of Ardagh and the business of Exal on October 31, 2019 and therefore relates to a pre-trading period of the Trivium Group.

The significant accounting policies that have been applied to the unaudited consolidated interim financial statements are described in Note 3.

# 2. Statement of directors' responsibilities

The Directors are responsible for preparing the unaudited consolidated interim financial statements. The Directors are required to prepare financial information for each financial period on the state of affairs of the Group and of the profit or loss of the Group for that period. In preparing the unaudited consolidated interim financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Group will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the unaudited consolidated interim financial statements. Changes to accounting policies applied in the three and nine months ended September 30, 2020 are outlined in Note 3.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Group's website at: www.triviumpackaging.com.

The unaudited consolidated interim financial statements were approved for issue by the Supervisory Board of Trivium Packaging B.V. (the "Supervisory Board") on November 4, 2020.

# 3. Summary of significant accounting policies, critical accounting estimates, assumptions and judgements

#### **Basis of preparation**

The unaudited consolidated interim financial statements of the Group for the three and nine months ended September 30, 2020 have been prepared in accordance with IAS 34 "Interim Financial Reporting". The unaudited consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Report to Bondholders for the period ended December 31, 2019 which was prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the International Accounting Standards Board ("IASB") and related interpretations.

The unaudited consolidated interim financial statements are presented in U.S. dollar, rounded to the nearest million.

Income tax in interim periods is accrued using the effective tax rate expected to be applied to annual earnings.

The accounting policies, presentation and methods of computation followed in the unaudited consolidated interim financial statements are consistent with those applied in the Group's latest Report to Bondholders.

#### Representation of prior year comparatives and interim results

In accordance with IFRS 3 "Business Combinations", a number of additional provisional fair value adjustments, predominantly related to property, plant and equipment, intangible assets, deferred tax and net working capital, were made in relation to the net assets acquired as part of the Food & Specialty business of Ardagh and Exal business acquisition. The measurement period in respect of the Food & Specialty business of Ardagh and Exal business acquisition during which the Group may adjust the provisional amounts recognized for the assets and liabilities acquired will close one year after the completion of the transaction. The final purchase price allocation, including the final determination of cash generating units, will be completed during Q4 2020.

Accordingly, the consolidated statement of financial position at December 31, 2019 and the consolidated statement of changes in equity for the period ended December 31, 2019 have been re-presented to reflect the revised provisional fair values. The impact on previously reported depreciation and amortization, net of tax, for the two months ended December 31, 2019 as well as the six months ended June 30, 2020, are additional charges of \$12 million and \$4 million, respectively. Please refer to Note 13 for details of the provisional fair value of assets acquired and liabilities assumed as part of the acquisition.

#### **Recent accounting pronouncements**

The impact of new standards, amendments to existing standards and interpretations issued and effective for annual periods beginning on or after January 1, 2020 have been assessed by management and no new standards or amendments to existing standards effective after January 1, 2020 have had a material impact for the Group. Management's assessment of the impact of new standards, which are not yet effective and which have not been early adopted by the Group, on the unaudited consolidated interim financial statements and disclosures is on-going.

# 4. Segment and revenue analysis

The Group's two operating and reportable segments are Europe and Americas. This reflects the basis on which the Group performance is reviewed by management and presented to the Chief Operating Decision Maker ("CODM").

Performance of the business is assessed based on Adjusted EBITDA. Adjusted EBITDA is the profit or loss for the period before income tax charge or credit, net finance expense, depreciation and amortization and exceptional operating items. Other items are not allocated to segments, as these are reviewed by the CODM on a group-wide basis. Segmental revenues are derived from sales to external customers. Inter-segment revenue is not material.

Exceptional items are those that in management's judgment need to be disclosed by virtue of their size, nature or incidence.

2020

Exceptional items before tax of \$36 million have been recognized for the nine months ended September 30, 2020, primarily comprising:

- \$16 million of restructuring and other costs which includes \$10 million of foreign currency losses relating to a devaluation of the Brazilian Real (\$6 million) and Argentinian Peso (\$4 million) versus the US Dollar, \$5 million of headcount costs in the Europe segment and \$1 million of cleaning costs, net of insurance recoveries received, as a result of the fire in the Roanoke plant in the Americas segment.
- \$23 million of acquisition and integration costs following the formation of the Group in 2019.
- \$3 million of exceptional finance income relates to foreign currency gains on lease obligations denominated in Brazilian Real.

2019

- \$2 million of transaction related costs incurred prior to the combination of the Food and Specialty business of Ardagh and the business of Exal on October 31, 2019.
- \$9 million of exceptional finance charges which includes \$26 million of interest expense, \$7 million of interest income and \$10 million of foreign exchange gains on the Group's financing activities prior to the combination as mentioned above.

During the nine months ended September 30, 2020, a number of additional provisional fair value adjustments related to goodwill, customer relationships, technology and software intangible assets and property, plant and equipment were made in relation to the net assets acquired as part of the Food & Specialty business of Ardagh and Exal business acquisition. With the exception of additions, the above amounts are subject to the finalization of purchase price allocation which will be completed during Q4 2020. Additions in the two-month period to December 31, 2019 that are included in the net book value at January 1, 2020 are also not subject to the finalization of purchase price allocation.

At September 30, 2020, the carrying amount of the right-of-use assets included within property, plant and equipment was \$94 million.

The Group recognized a depreciation charge of \$28 million and \$80 million in the three and nine months ended September 30, 2020.

#### Allocation of goodwill

Goodwill has not been allocated to groups of CGUs for the purpose of impairment testing at September 30, 2020, and is subject to the finalization of purchase price allocation and determination of the appropriate CGUs over which to allocate the goodwill, which will be completed during Q4 2020.

#### Impairment test for goodwill

Goodwill is not subject to amortization and is tested annually for impairment following the approval of the annual budget (normally at the end of the financial year), or more frequently if events or changes in circumstances indicate a potential impairment.

Management has considered whether any impairment indicators existed at the reporting date, or arose subsequent to the date that the unaudited consolidated interim financial statements were approved for issue by the Supervisory Board, including assessing whether the Group had experienced or is expected to experience prolonged cessation of operations or had suffered or is expected to suffer either a prolonged decline in demand or prices and profitability as a result of COVID-19. In addition, management assessed the likely impact of potential reduced economic activity in the markets in which the Group operates. Since the Company is operating in a defensive industry and the Group's anticipated future trading performance is expected to continue to be comparable to that previously anticipated by management, the results of the assessment were such that no impairment indicators have been identified and that management have concluded that the goodwill is fully recoverable as at September 30, 2020.

Derivative financial instruments used to hedge foreign currency and interest rate risk						5	_
Net debt / available liquidity						2,892	344

Net debt includes the fair value of associated derivative financial instruments that are used to hedge foreign exchange and interest rate risks relating to Group borrowings.

The fair value of the Group's total borrowings excluding lease obligations at September 30, 2020 is \$3,029 million (December 31, 2019: \$3,106 million).

At September 30, 2020, the Group had \$215 million available under the \$250 million Global Asset Based Loan Facility, \$65 million of which is drawn.

In late May 2020, the Group entered into a revolving credit facility (the "Ardagh Credit Facility") with Ardagh. The amount under the Ardagh Credit Facility is \$57 million. The amount steps down to \$36 million on December 15, 2020. The Ardagh Credit Facility matures on April 30, 2021 with an option to extend to October 31, 2021. At September 30, 2020, the amount drawn under the Ardagh Credit Facility was \$nil.

A number of the Group's borrowing agreements contain certain covenants that restrict the Group's flexibility in areas such as incurrence of additional indebtedness (primarily maximum secured borrowings to Adjusted EBITDA and a minimum Adjusted EBITDA to interest expense), payment of dividends and incurrence of liens. The Global Asset Based Loan Facility is subject to a springing fixed charge coverage ratio covenant. The facility also includes cash dominion, representations, warranties, events of default and other covenants that are generally of a nature customary for such facilities.

At December 31, 2019, the Group's net debt and available liquidity was as follows:

7. W.	G	Maximum amount	Final maturity	Facility			Undrawn

Total borrowings	3,056	3,026
Deferred debt issue costs	(32)	(46)
Net borrowings	3,024	2,980

The Group's Senior Secured and Senior Notes of \$2,897 million are included within the greater than five years maturity profile above.

#### Cross currency interest rate swaps

The Group hedges certain portions of its external borrowings and interest payable thereon using cross currency interest rate swaps ("CCIRS"), with a net liability at September 30, 2020 of \$5 million (December 31, 2019: \$8 million net liability).

#### Fair value methodology

There has been no change to the fair value hierarchies for determining and disclosing the fair value of financial instruments.

Fair values are calculated as follows:

(i) Senior secured and senior notes - The fair value of debt securities in issue is based on valuation techniques in which all significant inputs are based on observable market data, which represent Level 2 inputs.

- (ii) Global Asset Based Loan Facility and other borrowings The estimated value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and remaining maturity and represents Level 2 inputs.
- (iii) CCIRS The fair values of the CCIRS are based on quoted market prices and represent Level 2 inputs.
- (iv) Commodity and foreign exchange derivatives The fair value of these derivatives are based on quoted market prices and represent Level 2 inputs.

# **10.** Employee benefit obligations

Employee benefit obligations at September 30, 2020 have been reviewed in respect of the latest discount rates and asset valuations. A re-measurement loss of \$5 million and \$8 million has been recognised in the unaudited consolidated interim statement of comprehensive income for the three and nine months ended September 30, 2020 respectively.

The re-measurement loss of \$5 million recognised for the three months ended September 30, 2020 consisted of an increase in the obligations of \$7 million, partly offset by an increase in asset valuations of \$2 million.

The re-measurement loss of \$8 million recognised in the nine months ended September 30, 2020 consisted of an increase in obligations of \$15 million, partly offset by an increase in asset valuations of \$7 million.

The defined benefit obligation in the Netherlands is due for repayment within one year and therefore has been included within current liabilities.

# 12. Related party transactions

The Group is party to a Mutual Services Agreement ("MSA") with Ardagh Group S.A. ("Ardagh"), pursuant to which the Group and Ardagh provide services to each other. The services generally relate to administrative support in respect of treasury activities, tax reporting, procurement and logistics, R&D, certain IT services and other services. The MSA provides for the sharing of certain facilities leased by the Group in connection with the provision of services, with appropriate segregations in place between the Group's entities, on the one hand, and Ardagh, on the other hand.

The Group recognized expenses of \$4 million and \$15 million in respect of the MSA in the three and nine months ended September 30, 2020, respectively.

Following the finalization of the completion accounts process, the Group also settled a net related party payable owing to Ardagh of \$52 million in the nine months ended September 30, 2020. This movement primarily relates to net deferred consideration of \$32 million in respect of the transaction to combine the Food & Specialty business of Ardagh and the business of Exal.

In late May 2020, the Group entered into a revolving credit facility (the "Ardagh Credit Facility") with Ardagh. The amount under the Ardagh Credit Facility is \$57 million. The amount steps down to \$36 million on December 15, 2020. The Ardagh Credit Facility matures on April 30, 2021 with an option to extend to October 31, 2021. At September 30, 2020, the amount drawn under the Ardagh Credit Facility was \$nil.

Included within current liabilities at September 30, 2020 are related party derivatives of \$1 million with Ardagh.

At September 30, 2020 the Group has a net related party payable owing to Ardagh of \$nil (December 31, 2019: \$16 million).

# 13. Business combinations

On October 31, 2019 the transaction to combine the Food & Specialty business of Ardagh and the business of Exal to form the Trivium Group was completed.

The acquired businesses comprised 55 manufacturing plants primarily across Europe, North America, Argentina and Brazil.

During the nine months ended September 30, 2020, the Group further updated its initial purchase price allocation, to be completed during Q4 2020. The following table summarizes the consideration paid and the provisional fair value of assets acquired and liabilities assumed:

	\$'m
Cash and cash equivalents	28
Property, plant and equipment	964
Intangible assets	1,667
Other non-current assets	3
Net working capital *	162
Derivative financial instruments	(3)
Income tax payable	(22)
Net deferred tax liability	(355)
Borrowings **	(273)
Employee benefit obligations	(352)
Total identifiable net assets	1,819
Goodwill	1,745
Total consideration	3,564

\*Net working capital includes trade receivables of \$305 million. \*\*Borrowings includes lease obligations of \$100 million.

The allocations above are based on management's substantially completed determination of the fair values, subject to final completion during Q4 2020. Following the finalization of the completion accounts process, the total consideration consists of cash consideration paid of \$2,590 million and non-cash equity consideration of \$974 million.

The Group used a comparable market multiples approach including Adjusted EBITDA multiplied by an earnings multiple (based on comparable market transactions) to assess the fair value of the equity.

The net cash flow relating to the acquisition is summarized below:

	\$'m
Cash consideration paid	2,590
Cash and cash equivalents acquired	(28)
Net cash outflow	2,562

During the nine months ended September 30, 2020, cash consideration paid includes net consideration paid of \$32 million, being \$37 million related to the closing settlement partly offset by \$5 million received from the remeasurement of the estimated consideration upon the finalization of the completion accounts process in accordance with the Sale and Purchase agreement between the parties.

Goodwill arising from the combination reflects the anticipated commercial and financial benefits, including transformation benefits, which include the integration of the two operational platforms in addition to the skills and the technical talent of the combined workforce.

# 14. Contingencies

#### Environmental issues

The Group is regulated under various national and local environmental, occupational health and safety and other governmental laws and regulations relating to:

- the operation of installations for the manufacture of metal packaging and surface treatment using solvents;
- the generation, storage, handling, use and transportation of hazardous materials;
- the emission of substances and physical agents into the environment;
- the discharge of waste water and disposal of waste;
- the remediation of contamination;
- the design, characteristics, collection and recycling of its packaging products; and
- the manufacture, sale and servicing of machinery and equipment for the container metal packaging industry.

The Group believes, based on current information, that it is in substantial compliance with applicable environmental laws and regulations and permit requirements. It does not believe it will be required, under existing or anticipated future environmental laws and regulations, to expend amounts, over and above the amounts accrued, which will have a material effect on its business, financial condition or results of operations or cash flows. In addition, no material proceedings against the Group arising under environmental laws are pending.

#### Legal matters

In 2015, the German competition authority (the Federal Cartel Office) initiated an investigation of the practices in Germany of metal packaging manufacturers, including the Food & Specialty business that Trivium has acquired from Ardagh Group S.A. In 2018, the European Commission took over this investigation and the German investigation is, as a result, at an end. Ardagh Group S.A. has agreed to provide an indemnity in respect of certain losses that Trivium might incur in connection with this investigation. The European Commission's investigation is ongoing, and there is at this stage no certainty as to the extent of any charge which may arise. Accordingly, no provision or associated indemnification asset has been recognized.

With the exception of the above legal matter, the Group is involved in certain other legal proceedings arising in the normal course of its business. The Group believes that none of these proceedings, either individually or in aggregate, are expected to have a material adverse effect on its business, financial condition, results of operations or cash flows.

# 15. Seasonality of operations

The Group's revenue and cash flows are both subject to seasonal fluctuations with the Group generally building inventories in anticipation of these seasonal demands resulting in working capital requirements typically being greatest during the first quarter of the year. The demand for our food and seafood products is typically greater in the second and third quarters of the year. The Group manages the seasonality of working capital principally by supplementing operating cash flows with drawings under our Global Asset Based Loan facility.

# 16. Other information

#### COVID-19

The outbreak of the COVID-19 pandemic and the resulting measures to prevent its spread, including restrictions on travel, imposition of quarantines and prolonged closures of workplaces and other businesses, which ultimately resulted in lockdowns of many countries in which we do business, did not materially impact our operating results during the three and nine months ended September 30, 2020. Despite an adverse effect from reduced global economic activity as a result of these lockdowns in place for most of the second quarter, overall demand for the majority of our customers' products and, therefore, the products we manufacture, did not materially impact our operating results to date. The COVID-19 pandemic did not significantly impact our ability to operate our business, and there were no significant disruptions to our supply chain and workforce. The impact of

the pandemic on capital markets is not expected to have a material impact on our cost of borrowing. During the three months ended September 30, 2020, incremental COVID-19 related costs, including safety and cleaning costs, continued to be incurred throughout the Group.

The ultimate significance of the impact of these disruptions will be determined by the length of time that such disruptions continue, which will, in turn, depend on the duration of the second wave of the COVID-19 pandemic, the impact of governmental and other regulations in response to the pandemic and the resulting effect on macroeconomic activity and consumer behavior.

Our ongoing response to the outbreak of the COVID-19 pandemic across our business operations can be summarized as follows:

#### **Business Continuity:**

We are a leading supplier of innovative, value-added, rigid packaging solutions in Europe, North America, Brazil and Argentina. In the markets we operate in, Trivium is an essential provider of packaging to the food supply chain. Other end-use categories for Trivium's products include nutrition, seafood, premium beverage offerings, paints & coatings, chemicals, personal care, pharmaceuticals and general household. Our employees are deemed "Essential Critical Infrastructure Workers" under the guidance of the U.S. Department of Homeland Security, as are many of our customers. Where other governments have issued guidance, we have received equivalent designations where we operate. As a result, all our global operations were and are permitted to continue to operate and mostly did so continuously through this quarter. Only in a few instances lines were taken down for a few days and restarted after production lines were cleaned. We will continue to manage our capacity in response to the evolution of demand.

#### Employee health and safety:

The health and safety of our 7,700 employees and their families and communities, as well as our contractors, suppliers and customers has been our highest priority since the outbreak of the crisis. We established a Group-wide task force to ensure an effective and consistent response across our business. Regular updates have been issued with dedicated communication of recommendations, policies and procedures. Communication with all stakeholders has been a core element in our response.

Measures continue to evolve in line with best practice and with recommendations by governments, national health authorities and the World Health Organization. Initiatives introduced to date have included: enhanced hygiene procedures in all locations, including increased cleaning in our production facilities; increased investment in personal protective equipment; adapting work practices and routines to ensure social distancing; establishing procedures for self-isolation; travel advisories including restrictions on all non-essential travel, prior to broader restrictions on any travel; restrictions on visitors to our production facilities; actively encouraging and, at times, requiring remote working for nonoperational personnel, and enhancing our IT capability to facilitate increased remote working.

#### Available liquidity:

The Group's long-term liquidity needs primarily relate to the service of our debt obligations. We expect to satisfy our future long-term liquidity needs through a combination of cash flow generated from operations and, where appropriate, to refinance our debt obligations in advance of their respective maturity dates.

The Group generates substantial cash flow from our operations on an annual basis. At the start of the pandemic, as a precautionary measure in response to the increased macroeconomic uncertainty related to COVID-19, we have increased our total available liquidity, by temporarily drawing up to 85% on our Global Asset Based Loan facility, and by entering a revolving credit facility with Ardagh respectively.

During the three months ended September 30, 2020, the Group repaid \$127 million on our Global Asset Based Loan facility. The Group had \$137 million in cash and cash equivalents and restricted cash as of September 30, 2020, as well as available but undrawn liquidity of \$207 million under its credit facilities.

# Going concern:

At the date that the unaudited consolidated interim financial statements were approved for issue by the Supervisory Board, the Management Board and Supervisory Board (together "the Boards") have formed the judgement that, despite the ongoing uncertainty around the development of the COVID-19 pandemic, there is a reasonable expectation that the Group will have adequate resources to continue in operational existence for the foreseeable future. Accordingly, these unaudited consolidated interim financial statements have been prepared on a going concern basis.

In assessing whether the going concern assumption is appropriate, the Boards have taken into account all available information about a period, extending to at least, October 31, 2021. In particular, the Boards have considered the outbreak of COVID-19 and measures to prevent its spread being imposed by Governments in the countries in which the Group, its suppliers and its customers operate, as previously referred to.

In arriving at its conclusions, the Boards have taken account of the Group's current and anticipated trading performance, together with current and anticipated levels of cash and net debt and the availability of committed borrowing facilities and developed scenarios to reflect potential COVID-19 impacts on the Group's liquidity. The Boards have developed a number of adverse scenarios to reflect potential COVID-19 impacts on the Group's liquidity. These ultimately informed the Boards' judgement that it is appropriate to prepare the unaudited consolidated interim financial statements using the going concern basis.

# Customer credit risk:

Group policy is to extend credit to customers of good credit standing. Credit risk is managed on an on-going basis, by experienced people within the Group. The Group's policy for the management of credit risk in relation to trade receivables involves periodically assessing the financial reliability of its customers, taking into account their financial position, past experience and other factors and regularly monitoring the utilization of credit limits. The Group monitors actual historical credit losses and adjusts for forward-looking information to measure the level of expected losses. Management's assessment includes consideration of adverse changes in the payment status of customers of the Group, or national or local economic conditions that correlate with defaults on receivables owing to the Group, which may also provide a basis for an increase in the level of provision above historic loss experience.

Management does not expect any significant counterparty to fail to meet its obligations and there is no recent history of default with customers. Significant balances are assessed for evidence of increased credit risk. Examples of factors considered are high probability of bankruptcy, breaches of contract or major concession being sought by the customer. Instances of significant single customer related bad debts are rare and there is no significant concentration of risk associated with particular customers.

# 17. Events after the reporting period

During October 2020, the Group repaid in full the remaining drawings under our Global Asset Based Loan Facility (in the amount of \$65 million).

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

# SELECTED FINANCIAL INFORMATION

The following discussion should be read together with, and is qualified in its entirety by, reference to the Unaudited Consolidated Interim Financial Statements for the three months and nine months ended September 30, 2020 including the related notes thereto. As used in this section, the "Group" refers to Trivium Packaging B.V. and its subsidiaries.

Some of the measures used in this report are not measures of financial performance under IFRS and should not be considered an alternative to cash flow from operating activities as a measure of liquidity or an alternative to operating profit/(loss) or profit/(loss) for the period as indicators of our operating performance or any other measures of performance derived in accordance with IFRS.

The following table sets forth summary consolidated financial information for the Group.

#### **Review of the period**

#### Three months ended September 30, 2020

#### Group

Revenue for the three-month period ended September 30, 2020 increased by \$46 million, or 6%, to \$757 million, compared with \$711 million for the pro-forma three-month period ended September 30, 2019. Adjusted EBITDA for the three-month period ended September 30, 2020 increased by \$2 million, or 2%, to \$123 million, compared with \$121 million in the pro-forma three-month period ended September 30, 2019. On a constant currency basis, revenue increased by \$28 million and adjusted EBITDA decreased by \$1 million for the third quarter, compared with the pro-forma quarter ended September 30, 2019.

#### Europe

Revenue for the three-month period ended September 30, 2020 increased by \$34 million, or 7%, to \$541 million, compared with \$507 million in the pro-forma three-month period ended September 30, 2019. On a constant currency basis, revenue increased by 3%, as favorable volume/mix effects were partly offset by lower selling prices, including the pass-through of lower input costs. Adjusted EBITDA for the three-month period ended September 30, 2020 increased by \$1 million, or 1%, to \$78 million, compared with \$77 million in the pro-forma three-month period ended September 30, 2019. On a constant currency basis, adjusted EBITDA decreased by 4%, due mainly to lower selling prices and higher costs, partly offset by favorable volume/mix effects.

#### Americas

Revenue for the three-month period ended September 30, 2020 increased by \$12 million, or 6%, to \$216 million, compared with \$204 million for the pro-forma three-month period ended September 30, 2019. The increase in revenue primarily relates to strong growth in our North American food business, partly offset by lower volume/mix in our aerosols business as a result of the impact of the COVID-19 pandemic and the pass-through of lower raw material input costs. Adjusted EBITDA for the three-month period ended September 30, 2020 increased by \$1 million, or 2%, to \$45 million, compared with \$44 million for the pro-forma three-month period ended September 30, 2019. The increase in adjusted EBITDA is principally due to favorable volume/mix effects in the North American food business and operating and other cost savings and efficiencies, partly offset by lower volume/mix in our aerosols business as a result of the impact of the COVID-19 pandemic.

#### Nine months ended September 30, 2020

#### Group

Revenue for the nine-month period ended September 30, 2020 increased by \$29 million, or 1%, to \$2,024 million, compared with \$1,995 million for the pro-forma nine-month period ended September 30, 2019. Adjusted EBITDA for the nine-month period ended September 30, 2020 decreased by \$14 million, or 4%, to \$319 million, compared with \$333 million in the pro-forma nine-month period ended September 30, 2020 increased by \$14 million, or 4%, to \$319 million, compared with \$333 million in the pro-forma nine-month period ended September 30, 2019. On a constant currency basis, revenue for the nine months ended September 30, 2020 increased by \$35 million, while adjusted EBITDA decreased by \$14 million, compared with the pro-forma nine months ended September 30, 2019.

#### Europe

Revenue for the nine-month period ended September 30, 2020 increased by \$1 million, to \$1,452 million, compared with \$1,451 million in the pro-forma nine-month period ended September 30, 2019. On a constant currency basis, revenue increased by \$7 million principally due to higher volume/mix effects, partly offset by the pass-through of lower input costs. Adjusted EBITDA for the nine-month period ended September 30, 2020 decreased by \$16 million, or 7%, to \$201 million, compared with \$217 million in the pro-forma nine-month period ended September 30, 2019. On a constant currency basis, adjusted EBITDA decreased by 7%, due mainly to unfavorable tinplate revaluation effects and increased costs including COVID-related costs, partly offset by favorable mix effects.

#### Americas

Revenue for the nine-month period ended September 30, 2020 increased by \$28 million or 5%, to \$572 million, compared with \$544 million for the pro-forma nine-month period ended September 30, 2019. The increase in revenue primarily relates to favorable volume/mix effect in our North American food business partly offset by an unfavorable volume/mix effect in our aerosols business as a result of the impact of the COVID-19 pandemic, the pass-through of lower raw material input costs and the effect of the divestment in South America. Adjusted EBITDA for the nine-month period ended September 30, 2020 increased by \$2 million or, 2% to \$118 million compared with \$116 million in the pro-forma nine-month period ended September 30, 2019. On a constant currency basis, adjusted EBITDA increased by 2% mainly due to favorable volume/mix effects in our North American food business and improved operational efficiencies, partly offset by unfavorable volume/mix effects in our aerosols business as a result of the impact of the COVID-19 pandemic and adverse tinplate revaluation effects.

Capital expenditure is the sum of purchases of property, plant and equipment and software and other intangibles, net of proceeds from disposal of property, plant and equipment, as per the consolidated statement of cash flows.

#### Liquidity and Capital Resources at September 30, 2020

Our principal sources of cash are cash generated from operations and external financings, including borrowings and other credit facilities. Our principal funding arrangements include borrowings available under the Group's Global Asset Based Loan Facility. These and other sources of external financing are described further in the following table.

The following table outlines our principal financing arrangements as of September 30, 2020.

The Group's long-term liquidity needs primarily relate to the service of our debt obligations. We expect to satisfy our future long-term liquidity needs through a combination of cash flow generated from operations and, where appropriate, to refinance our debt obligations in advance of their respective maturity dates.

The Group had \$137 million in cash and cash equivalents and restricted cash as of September 30, 2020, as well as available but undrawn liquidity of \$207 million under its credit facilities.

In late May 2020, the Group entered into a revolving credit facility with Ardagh. The amount under the Ardagh Credit Facility is \$57 million. The amount steps down to \$36 million on December 15, 2020. The Ardagh Credit Facility matures on April 30, 2021 with an option to extend to October 31, 2021. At September 30, 2020, the amount drawn under the Ardagh Credit Facility was \$nil.

# **Receivables factoring and related programs**

The Group participates in several uncommitted accounts receivable factoring and related programs with various financial institutions, accounted for as true sales of receivables, without recourse to the Group. Receivables of \$204 million were sold under these programs at September 30, 2020 (June 30, 2020: \$183 million).

# Footnotes to the Selected Financial Information

- (1) Adjusted EBITDA consists of a Profit/(loss) for the period before income tax expense, net finance expense, depreciation and amortization and exceptional operating items. Adjusted EBITDA margin is calculated as adjusted EBITDA divided by revenue. Adjusted EBITDA and adjusted EBITDA margin are presented because we believe that they are frequently used by securities analysts, investors and other interested parties in evaluating companies in the packaging industry. However, other companies may calculate adjusted EBITDA and adjusted EBITDA margin are not measurements of financial performance under IFRS and should not be considered an alternative to profit/(loss) as indicators of operating performance or any other measures of performance derived in accordance with IFRS.
- (2) Exceptional items are shown on a number of different lines in the unaudited Consolidated Interim Income Statement. See Note 5 to the unaudited consolidated interim financial statements for further details.
- (3) Finance and interest expense is as presented on page 11.
- (4) Capital expenditure is the sum of purchases of property, plant and equipment and software and other intangibles, net of proceeds from disposal of property, plant and equipment, as per the unaudited Consolidated Interim Statement of Cash Flows on page 7.
- (5) Cash and cash equivalents include restricted cash.
- (6) Net borrowings comprise non-current and current borrowings net of deferred debt issue costs.
- (7) Net debt is comprised of net borrowings and derivative financial instruments used to hedge foreign currency and interest rate risk net of cash and cash equivalents.
- (8) Net debt to adjusted LTM EBITDA ratio at September 30, 2020 of 7.1x, is based on net debt at September 30, 2020 of \$2,892 million and pro forma last twelve months adjusted EBITDA of \$408 million. Including projected transformation benefits of at least \$50 million expected by December 2022, the net debt to adjusted pro forma last twelve months EBITDA ratio at September 30, 2020 would be 6.3x.

# CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report includes statements that are, or may be deemed to be, forward-looking statements. All statements other than statements of historical fact included in this report regarding our business, financial condition, results of operations and certain of our plans, objectives, assumptions, projections, expectations or beliefs with respect to these items and statements regarding other future events or prospects, are forward-looking statements. These statements include, without limitation, those concerning: our strategy and our ability to achieve it; expectations regarding sales, profitability and growth; our possible or assumed future results of operations; R&D, capital expenditures and investment plans; adequacy of capital; and financing plans. The words "aim", "may", "will", "expect", "is expected to", "anticipate", "believe", "future", "continue", "help", "estimate", "plan", "schedule", "intend", "should", "would be", "seeks", "estimates", "shall" or the negative or other variations thereof, as well as other statements regarding matters that are not historical fact, are or may constitute forward-looking statements.

Although we believe that the estimates reflected in the forward-looking statements are reasonable, such estimates may prove to be incorrect. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future.

All forward-looking statements included in this report are based on information available to us on the date of this report. We undertake no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this report.
