

# Metal Packaging Solutions for Coffee

# How to Make Your Coffee Product Even More Irresistible

Our infinitely sustainable packaging delivers eye-catching looks that will elevate your brand and your sales. Trivium's capabilities allow us to partner with you across all coffee segments. Whether your portfolio is full or expanding, our packaging solutions are designed to grow your business while being eco-friendly.

Trivium offers a variety of packaging solutions for instant, ground, whole bean, cold brew and specialty coffees.

# Turning Sustainability into Success

Our infinitely recyclable metal packaging solutions protect your product, promote your brand and preserve our planet.

# A Growing Demand

The challenge for consumer brands has become clear:

It's no longer a question of whether brands should shift to more sustainable packaging, but how. The 2020 Buying Green Report conducted together with Boston Consulting Group shows that sustainability is at the top of consumers' lists when it comes to packaging.

**53%**

are actively looking for recycling or sustainability information on packaging.

**59%**

say they are less likely to buy a product in harmful packaging.

**47%**

of consumers won't buy products in packaging that is harmful to the environment.

# Our Products

Our cans offer sustainable, high-quality, protective packaging that is infinitely recyclable without loss of quality.

For increased sustainability, our mono-material can be designed with a metal snap lid.

**75%**  
of metal ever made  
is still in use.

## Premium Look

- Allows for high-quality designs with a variety of different printing options
- Metal elevates appearance more than plastic or composite cans
- Tinline cans stand out on the shelf

## Freshness Ensured

- Superior oxygen barrier preserves freshness of coffee
- Unbreakable, impact and puncture resistant
- Wide range of product variants (shapes, openings, embossing)

Infinitely  
Recyclable

Can be recycled again and again without loss of quality.

Photographic images

Special effects

Ultraviolet effects – glow in the dark

Photographic – high-definition reproduction

Thermochromic – color-changing inks are revealed with temperature

# A Sustainable Pursuit

## Three roads, one incredible company.

Trivium is Latin for three roads coming together. At Trivium, people, planet and customers are the foundations of our success. These three roads drive our passion to fulfill our mission of reliably delivering high-quality, innovative and sustainable packaging that exceeds expectations in protecting and promoting our partners' brands.

Manufacturing sustainable, infinitely recyclable packaging

A relentless focus on quality, service and sustainable innovation

Providing a corporate socially responsible, inspiring and safe working environment

## Leading the Way

As a global leader in metal packaging, we received two A- ratings from the CDP for climate change and water security in 2020. We are committed to providing sustainable packaging that drives exceptional value for both you and the planet. Our innovative solutions in metal packaging and our global network of award-winning design capabilities help ensure your products stand out at the point of sale and beyond.
